

(School Letterhead)

Date:

Dear Parents,

In recent news stories, comments have been made about teachers' not providing instruction for students after the CATS testing window. At *(School Name Here)* School, we are committed to providing quality instruction for our students from the first day of school through the last.

To ensure that students are engaged in meaningful instruction every day, during the *(date)* meeting, our School-based Decision Making Council amended the instructional practices policy to specify these high expectations.

Following the spring testing window, teams of teachers will plan lessons for your child that could include content from the next grade level, content that requires deeper understanding, relevant and interesting units of study, and even field trips that provide meaningful learning experiences.

(School Name Here) teachers are dedicated to the success of each student and value every hour we have to devote to teaching and learning. If you have questions, do not hesitate to contact us. Thank you for your partnership and support.

Sincerely,

Name
Principal
