

District Disaggregated Index Results by Lunch Status and Gender  
 Council for Better Education • Kentucky Association of School Councils • Prichard Committee For Academic Excellence

The Transition Index is a single number on a 0-140 scale combining a school's Kentucky Core Content Test results in reading, mathematics, science, social studies, and writing.

In the table below:

- The 2009 columns show each district's index results for the listed groups.
- The change columns show how each district's index results changed from 2007 to 2009.
- † marks groups where an index could not be computed for that district. Most often, that means the district had too few students to report results in at least one of the tested subjects.

For more information on the transition index project or for results for other levels of schools, districts, individual subjects, and disaggregated groups, please visit [www.kasc.net](http://www.kasc.net) or call (859) 238-2188.
