

Middle School Disaggregated Index Results by Lunch Status and Gender
 Council for Better Education • Kentucky Association of School Councils • Prichard Committee For Academic Excellence

The Transition Index is a single number on a 0-140 scale combining a school's Kentucky Core Content Test results in reading, mathematics, science, social studies, and writing.

In the table below:

- The 2009 columns show each school's index results for the listed groups.
- The change columns show how each school's index results changed from 2007 to 2009
- † marks groups where an index could not be computed for that school. Most often, that means the school had too few students to report results in at least one of the tested subjects. Less often, all students were at the same performance level or that the school was not open in 2007 or 2008.

For more information on the transition index project or for results for other levels of schools, districts, individual subjects, and disaggregated groups, please visit www.kasc.net or call (859) 238-2188.
