

## HIGH SCHOOL TRANSITION INDEX RESULTS

Council for Better Education • Kentucky Association of School Councils • Prichard Committee For Academic Excellence

The transition index columns summarize school results in reading, mathematics, science, social studies, and on-demand writing in a single number. 140 is the maximum possible index and would reflect all students doing distinguished work in all subjects. 100 is equivalent to a schoolwide average of proficient work in all subjects.

The status column indicates how schools are doing in relation to reaching 100 by 2014, with five possible entries:

- Already 100+ indicates a school that has already reached 100 or higher.
- On track for 100 indicates schools that will reach 100 by 2014 if they continue to improve at their 2007 to 2009 rate.
- Improving schools are making progress but not at a rate quick enough to reach 100.
- Flat for schools where the 2007 and 2009 results are the same.
- Declining schools had 2009 results lower than their 2007 results.
- New schools have not been in operation long enough to project whether they will reach 100.
