

MIDDLE SCHOOL TRANSITION INDEX RESULTS

Council for Better Education • Kentucky Association of School Councils • Prichard Committee For Academic Excellence

The transition index columns summarize school results in reading, mathematics, science, social studies, and on-demand writing in a single number. 140 is the maximum possible index and would reflect all students doing distinguished work in all subjects. 100 is equivalent to a schoolwide average of proficient work in all subjects.

The status column indicates how schools are doing in relation to reaching 100 by 2014, with five possible entries:

- Already 100+ indicates a school that has already reached 100 or higher.
- On track for 100 indicates schools that will reach 100 by 2014 if they continue to improve at their 2007 to 2009 rate.
- Improving schools are making progress but not at a rate quick enough to reach 100.
- Flat for schools where the 2007 and 2009 results are the same.
- Declining schools had 2009 results lower than their 2007 results.
- New schools have not been in operation long enough to project whether they will reach 100.

For more information on this project or for scores for other levels of schools, individual subjects, and disaggregated groups, please visit www.kasc.net or call (859) 238-2188.
